1. Select the “nswdet” WiFi to connect

2. When prompted, enter your DEC PORTAL (internet) account, with @DETNSW at the end of the user name and push join

3. (If it appears) Push Continue on the Verify Certificate message if it appears
4. Click Open **Network Preferences**

5. At the bottom of the Network Preferences, click **Advanced...**
6. Click on **Proxies** and **tick Auto Proxy Discovery**
