Connecting to the WiFi at Castle Hill HS
Windows 10

1. Select the “nswdet” WiFi and click “Connect”

2. This will open a new window. Enter your Student Portal (Internet) account with @detnsw at the end
3. You will be prompted if you really want to connect to the network. Click **Connect**

![Image of network connection prompt]

4. You will have to now add the proxy details. Search for “Internet Options” in the start bar and open it
5. Click on the “connections” tab at the top and then “LAN settings”

6. Tick “Use automatic configuration script” and enter the following address: http://pac.det.nsw.edu.au/fib/proxy.pac

7. You are now done. Click Ok and Ok again. You should now be able to use the internet with your credentials.
