Connecting to WiFi at Castle Hill HS
Windows 7

1. From the WiFi list, click on **Open Network and Sharing Center**

   IF YOU CANNOT SEE THE NSWDET WIFI, YOUR DEVICE IS NOT CURRENTLY COMPATIBLE WITH 5GHZ WIRELESS AND A USB WIFI DONGLE IS REQUIRED

2. Click on **Manage wireless networks**
3. Click on **Add**

4. Click **Manually create a network profile**
5. Enter details as below and click **Next**

![Manual network connection settings](image1)

6. Click on **Change connection settings**

![Change connection settings](image2)
7. From the **Security Tab**, click **Settings**

![Security Tab Settings](image1)

8. Untick “**Validate server certificate**” and click **Configure**

![Validate server certificate](image2)

9. Untick the box and click OK on both this window and the previous window.

![EAP MSCHAPv2 Properties](image3)
10. Click on Advance Settings

11. Tick “Specify authentication mode” and set to “User authentication”. Click OK when done.

12. You should see a prompt asking for details.
13. When prompted, enter your DEC PORTAL (internet) account, with @DETNOW at the end of the user name.

14. Open Internet Explorer and Internet options.
15. Go to the **Connections** tab and click on **LAN settings** at the bottom.

16. Tick **“User automatic configuration script”** and enter the address as seen below.
