1. Select the “nswdet” WiFi to connect

2. When prompted, enter your DEC PORTAL (internet) account, with @DETNSW at the end of the user name and push join

3. Push Accept on the Certificate message
4. Push the icon next for the nswdet WiFi settings

5. At the bottom of the WiFi settings, set HTTP Proxy to Manual and set the following:

- **Server**: `proxy.det.nsw.edu.au`
- **Port**: `8080`
- **Authentication**: `On`
- Leave Username and Password blank
